

Dear friends and Colleagues,

The **15<sup>th</sup> Summer Academy of Dermatopathology** will be held **July 4–8, 2022** in Graz, Austria. The Course will focus on clinicopathologic correlation of neoplastic and inflammatory skin disorders. The faculty of the Course includes Lorenzo Cerroni, (Graz), Arnaud de la Fouchardière (Lyon), Sylvie Fraitag (Paris), Isabella Fried (Graz), Katrin Kerl (Munich), Philip E. LeBoit (San Francisco), Bernadette Liegl-Atzwanger (Graz), Luis Requena (Madrid), Catherine Stefanato (London), and Thomas Wiesner (Vienna).

***The Course is limited to the first 130 applicants on a first come, first serve basis.***

Pre-registration opens now and will allow you to reserve a place in the Course. Upon sending the form you will receive a message confirming your pre-registration. ***Pre-registration will be valid until final registration begins. Because of the actual uncertainties concerning traveling, meetings etc., payment of the congress fee, necessary for final registration, will start in April 2022 rather than in January as in former years.***

For those who will not be able to attend the meeting, we are planning a live streaming that will allow participants to follow all presentations in real time as well as for some days after the meeting. ***Remote participation in the meeting by live stream will be possible for 150 participants on a first come, first serve basis.***

Details on how to pay the Course's fee and confirm final registration will be sent next March to all pre-registered persons. Pre-registration is not binding, i.e., you can cancel your participation before payment of the fee.

Covid-19-related regulations are changing constantly in every Country, including Austria. Although summertime is usually a "better" period, we advise you to check regularly for entry regulations. *At present time*, in Austria participation in any congress is allowed only for people with proof of full vaccination (not older than 9 months) or of recovery from infection (not older than 6 months).

Attached please find a pre-registration form and a preliminary programme. Pre-registration forms should be completed electronically and sent by email to:

We hope that you will be able to join us in Graz next Summer!

Best regards,

Lorenzo Cerroni

## **15<sup>th</sup> Summer Academy of Dermatopathology**

***Graz, July 4-8, 2022***

The 15<sup>th</sup> Summer Academy of Dermatopathology will be held July 4<sup>th</sup> – 8<sup>th</sup>, 2022 at the Convention Center, Graz, Austria. The Course will feature sessions on inflammatory skin disorders with clinicopathologic correlation, melanoma and nevi, cutaneous lymphomas and pseudolymphomas, and other benign and malignant conditions of the skin.

The Summer Academy of Dermatopathology is a course restricted to a limited number of participants in order to maximize interaction between speakers and audience. Many "typical" presentations and unusual variants of skin diseases, as well as rare cases of skin pathology will be reviewed and discussed thoroughly during 5 days of full-time dermatopathology. In addition to routine stainings and clinical pictures, relevant ancillary techniques (immunohistology, molecular biology) will be presented and discussed as well.

The Summer Academy of Dermatopathology is a specialized Course meant for good-level dermatopathologists and for all those with interest in correlation of clinical and histopathologic features of skin diseases. The aim of the Course is to provide information that can be applied immediately to dermatopathology practice, as well as to discuss problematic and controversial aspects that represent a daily conundrum in this field. The interactive outlay of the Course will maximize active participation of all registrants and allow continuous discussion and comments. At the end of the Course participants should be able to better diagnose skin disorders based on clinicopathological features, to select appropriate ancillary tests when needed, and to improve their knowledge of dermatopathological features of benign and malignant cutaneous diseases.

All Self-Assessment cases will be provided prior to the Meeting in electronic form in order to maximize the educational value. Hand-outs will be available after each session of the Course in electronic format as well.

Graz is a lively city, and many cultural and entertaining activities are scheduled daily. The format of the Course will allow participants to visit our city and enjoy, besides and beyond dermatopathology, cultural activities programmed in this period. We hope that you will come and join us in the friendly atmosphere of Graz's summer!
