

If you are a pathology or dermatology resident, a dermatopathology fellow, or a medical student, I would like to invite you to a very special NEW session titled **DERMPATH BOWL FOR TRAINEES** on **Wednesday, March 15, at 7 am**

Come, have fun, and learn! Compare your knowledge to that of your peers! Be a rising star in Dermatopathology and get noticed! No additional registration is required.

In this fun competition, individual participants will have an opportunity to shine with their knowledge in Dermatopathology by making the correct diagnosis.

Cases will be presented as a series of photomicrographs in a PowerPoint format for one minute per case. After each case, the participants will write their answer on a piece of paper. The correct diagnosis will be discussed. Those with the correct diagnosis will continue the competition. At the end, winners will be determined. They will receive monetary awards and certificates with 1st prize \$200, 2nd prize \$150, and 3rd prize \$100.

It would be great to talk about that during your interview with a Dermatopathology Fellowship Director and write it in your CV, wouldn't it? Come and join the Dermpath competition and have fun!

Thank you very much. I am in anticipation of the fun we are going to have!

Best regards,
Rossitza Lazova, MD
Session Director, Dermpath Bowl for Trainees
