

THE INTERNATIONAL SOCIETY

OF DERMATOPATHOLOGY

We are pleased to announce the 29th Joint Meeting of the International Society of Dermatopathology (ISDP) on March 25-26, 2026, at The Westin Denver Downtown in Denver, Colorado. The ISDP is offering sponsor and exhibitor opportunities, which could greatly enhance the visibility of your company to our audience of dermatopathologists and dermatology health professionals who attend each year. Last year's conference boasted the largest attendance since inception and we look for that continuing in 2026.

The meeting begins on Wednesday, March 25, 2026, and starts at 8:00am both days. A Welcome Reception will be held on Wednesday evening for sponsors/exhibitors to mingle with the attendees. Exposure to your products and services will not end when the live meeting is over because the meeting will be available on our Path Presenter platform for six months after the meeting has concluded.

We look forward to seeing you as an active participant at this premier event in the field of dermatopathology. Should you have any additional questions, please do not hesitate to contact me, Kelli Cook, at isdpkcook@gmail.com. I have attached the Exhibit Space Application/Contract to this email.

Thank you for your time and consideration.

Sincerely,

Kelli Cook
