

**ISDP JOINT MEETINGS  
SPEAKERS & TOPICS BY YEAR**

<b>YEAR</b>	<b>SPEAKER</b>	<b>TOPIC</b>
<b>2001</b>		<b>POSTER SESSION &amp; SELF-ASSESSMENT COURSE</b>
4 <sup>th</sup> . JM	Dieter Metze, Director	<b>CLINICOPATHOLOGIC QUIZ</b>
D.C.	Lorenzo Cerroni	
	Luis Requena	
	Clifton White	
	Jorge Sanchez	
	O. Sanguenza, Director F. Glass, Co-Director	<b>New Observations and Concepts that are Truly New</b>
	G. Borroni	B. Cribier
	JL Diaz-Perez	S. Gonzalez
	A. Hassanein	J. Hallman
	M. Hitchcock	M. Horenstein
	M. Magana	M. Sanguenza
	J. Messina	B. Zelger
	R. Cerio, Director	<b>EUROPEAN SOCIETY OF DERMATOPATHOLOGY</b>
	R. Cerio	ESDP Update, now in the future
	C. White	US Dermatopathology Training opportunities for Dip RC Path candidates
	J.L. Diaz	Dynamic morphological features of lupus panniculitis
	B. Zelger	Unusual fibrohistiocytic tumors
	S. Chimenti	Clinicopathologic aspect of cutaneous metastasis
	A B Ackerman, Director	<b>Tenets in Regard to Melanoma, Then and Now</b>
	V. Reddy	Concepts about the origin of melanocytes: Then and now
	G. Gottlieb	B-K mole (dysplastic nevus): Then and now
	P. LeBoit	Spitz's nevus: Then and now
	J. Mones	Melanomas in childhood: Then and now
	M. A. Tan	Criteria for histopathologic diagnosis of melanoma: Then and now
	A.B. Ackerman	Melanoma in situ: Then and now
	J. Maize	Histopathologic findings of importance in the prognosis of melanoma: Then and now
	B. Bakotic	Staging of melanoma: Then and now
	A. Paichitrojjana	Route of metastasis of melanoma: Then and now
	D. Reintgen	<b>Sentinel Node Biopsy</b>
	J. Messina	<b>Pathology of the Sentinel Lymph Node</b>
	A. B. Ackerman	<b>The Future of Journals of Dermatopathology</b>
	P. LeBoit	
	B. Smoller	
<b>2002</b>	Larry Millikan, Director	<b>Tropical Dermatology/Dermatopathology</b>
5 <sup>th</sup> . JM	Larry Millikan	
N.O.	Antonio D'Allesandro	
	Joseph Pace	
	Mohamed Amer	
		"GENERAL SESSION"

	A Bernard Ackerman	Unifying Concepts
	Joan Mones/Ray Barnhill	“Atypical” Spitz’s nevus-does it exist?
	Lorenzo Cerroni	<b>Dermatopathology and The International Society of Dermatopathology – the future</b>
	Philip LeBoit	
	John Maize Sr.	
		<b>REFLECTIONS ABOUT DERMATOPATHOLOGY</b>
	Giovanni Borroni	Dermatology of art as a lesion of art in dermatology
	Lorenzo Cerroni	What can be learned from the Tutorial on melanocytic neoplasms in Graz, 2000
	Geoffrey Gottlieb	Topographical dermatopathology
	Patricio Figueroa	Testifying against colleagues: A form of professional self-destruction?
	Russell Pelton, Esq.	Should the ISDP adopt a program for professional conduct similar to that of The American Association of Neurological Surgeons?
	Wolfgang Weyers	The Future of the ISDP
	Boris Bastian	Application of molecular biology to dermatopathology
	Philip LeBoit	Problems in dermatopathology that lend themselves to a solution by molecular techniques and others
<b>2003</b>	A Bernard Ackerman, Director	<b>New Concepts and New Observations</b>
6 <sup>th</sup> . JM	Noreen Walsh	Partial Regression of Melanoma Has No Significance Prognostically
S.F.	John Maize Sr.	Single-Cell Basal-Cell Carcinoma
	Joan Mones	Atypical Blue Nevus, Malignant Blue Nevus, and Metastasizing Blue Nevus:Deleterious Oxymorons
	John Maize Jr	Lupus Tumidus
	Neil Medalie	The Futility of Sentinel Node Biopsy
	Ryan Cole	A Critique of the Guidelines of the American Academy of Dermatology for Management of Melanoma
	Almut Boer	Prurigo Pigmentosa
	Boris Bastian, Director	<b>Molecular Dermatopathology</b>
	Boris Bastian	Introduction
	Dan Pinkel	High Precision Measurements of DNA and RNA Using Microarrays
	Sean Whittaker	Molecular Genetics of Cutaneous T-Cell Lymphoma
	James Zehnder	Assessment of T and B Cell Clonality in Skin
	Boris Bastian	Molecular Genetics of Melanocytic Tumors
	Joan Guitart, Director	<b>Dermatopathology Report: Implications and Complications</b>
	Raymond Barnhill	
	Mark Hurt	
	David B. Troxel	
	Rosalie Elenitsas	
	Joan Guitart	
	Philip LeBoit, Director	<b>Misdiagnosis and Consequences in Dermatopathology</b>
	A Bernard Ackerman	
	Sabine Kohler	
	Rosalie Elenitsas	
	Mark Hurt	
	Philip LeBoit	

	Omar Sanguenza, Director	<b>Clinicopathologic Correlations on Challenging Melanocytic Lesions</b>
	Jorge L. Sanchez	
	Raymond Barnhill	
	Omar Sanguenza	
	Philip LeBoit	
	A Bernard Ackerman	
	Lorenzo Cerroni, Director	<b>Challenge the Experts, Part I – Inflammatory Conditions</b>
	Giovannie Borroni	
	Luis Requena	
	Clifton White, Jr	
	Tim McCalmont, Direct	<b>Challenge the Experts, Part II – Adnexal Neoplasms</b>
	Tim McCalmont	
	Luis Requena	
	Mark Hurt	
<b>2004</b>	A Bernard Ackerman, Director	<b>Advances in Diagnosis of Inflammatory Diseases</b>
7 <sup>th</sup> . JM	A Bernard Ackerman	Histopathology
D.C.	Carlos Nousari	Immunopathology
	Wolfgang Weyers	The Abuse of Man: Dubious Human Experimentation by Dermatologists
	Jorge Toro, Director	<b>NIH – Latest Research Developments</b>
	Elaine S. Jaffe	Advances in the Classification of Cutaneous Lymphomas 2004: A WHO/EORTC Consensus Achieved
	Ivona Aksentijevich	Autoinflammatory Diseases – Familial Mediterranean Fever, Tumor Necrosis Factor Receptor Associated Periodic Syndrome, HyperIgD with Periodic Fever Syndrome
	Jorge Toro	Genodermatoses Associated with Kidney Cancer – Birt-Hogg-Dube Syndrome, Hereditary Leiomyomatosis and Renal Cell Cancer
	Wolfgang Weyers, Director	<b>Was Brocq Right?</b>
	Wolfgang Weyers	Brocq and the “Nebula of Parapsoriasis”
	Bernard Cribier	Louis Brocq – The Man Behind the Concept
	Lorenzo Cerroni	The Relationship of Parapsoriasis to Mycosis Fungoides
	Almut Boer	The Relationship of “Eczema” to Mycosis Fungoides
	Philip LeBoit	The Relationship of Lymphomatoid Papulosis to Mycosis Fungoides
	Voker Steinkraus	The Relationship of Seborrheic Dermatitis to Psoriasis Vulgaris
	Wolfgang Weyers	Disease or Pattern – About Concepts of Inflammatory Skin Diseases
	Philip LeBoit, Director	<b>What’s It Really? – In-Depth Discussion of Controversial Skin Conditions</b>
	Wolfgang Weyers	Erythema Annulare Centrifugum is a Spongiotic Dermatitis
	Lawrence Gibson	Alopecia Mucinosa: What’s It Really?
	Geoffrey Gottlieb	Kaposi’s Sarcoma: What’s It Really?
	A Bernard Ackerman	What’s It Really?: On the Fundamental Nature of 5 Diseases
	Geoffrey Gottlieb	What Are They Really?: Eosinophilic Inclusions in Melanocytic Nevi
	Lorenzo Cerroni	<b>Clinicopathologic Conference</b>
	Helmut Kerl	
	Omar Sanguenza	

<b>2005</b>	Omar Sanguenza, Director	<b>Clinicopathological Correlations</b>
8 <sup>th</sup> . JM		
N.O.	Philip LeBoit, Director	<b>Controversies in Sentinel Lymph Node Biopsies</b>
	Alistair Cochran	
	Richard Essner	
	Jane Messina	
	Victor Prieto	
	Wolfgang Weyers, Director	<b>Problematic Systemic Inflammatory Lesions</b>
	Wolfgang Weyers	Introduction
	John Metcalf	Sarcoidosis
	Sergio Gonzalez	Rheumatoid arthritis
	J. Andrew Carlson	Clues to systemic vasculitis in cutaneous biopsies
	W. P. Daniel Su	Pyoderma gangrenosum
	Wolfgang Weyers	Figurate erythemas
	Joan Guitart/Sabine Kohler, Co-Directors	<b>Current Issues in Cutaneous Lymphomas - Joint Meeting with the International Society of Cutaneous Lymphoma</b>
		<b>NEW WHO-EORTC CUTANEOUS LYMPHOMA CLASSIFICATION</b>
	Gunter Burg	Presentation proposed classification
	Youn Kim	Comments and critique from a clinician's standpoint
	Philip LeBoit	Comments and critique from a pathologist's standpoint
		<b>CONTROVERSIES IN CUTANEOUS LYMPHOMAS</b>
		<b>Tumor progression in MF</b>
	Jacqueline Junkins-Hopkins	Histological features and prognostic parameters
	Gary Wood	Molecular understanding of tumor progression and its role in our future practice
		<b>Gamma-delta versus alpha-beta CTCL</b>
	Jorge Toro	The importance of defining TCR heterodimer
	Sabine Kohler	Comments and critique of concept
		<b>NK lymphomas and related neoplasms</b>
	Iftikhar Ahmed	Overview
	Omar Sanguenza	Hydroe-vacciniforme-like lymphomas in Latin America
		<b>Lymphomatoid papulosis: who is the bad guy?</b>
	Sylke Gellrich/Wolfram Sterry	The monoclonal small T cells
	Joan Guitart	Comments and critique of concept
<b>2006</b>	Luiz Requena / Heinz Kutzner, Directors	<b>Histopathology of Cutaneous Deposits</b>
9 <sup>th</sup> . JM	Lorenzo Cerroni	Cutaneous Reactions to Cosmetic Fillers
S.F.	Maria Teresa Fernández-Figueras	Cutaneous Mucinosis
	Heinz Kutzner	Cutaneous Calcinosis
	José Manuel Mascaró	Porphyrias, Millium Coloide
	Luis Requena	Cutaneous Hyperpigmentation Secondary to Drug Deposits
	José Luis Rodríguez-Peralto	Cutaneous Amyloidosis
	Omar Sanguenza, Director	<b>Clinicopathologic Correlations in Alopecia</b>

	Amy McMichael	
	Joan Guitart, Director	<b>Impact of Clinical Information on the Dermatopathology Report</b>
	Dirk Elston	
	Iftikhar Ahmed	
	Helmut Kerl	
	Jorge Sanchez, Director	<b>Integration (or not) in Dermatopathology</b>
	Helmut Kerl	Mycosis Fungoides Variants
	Omar Sanguenza	Neutrophilic Dermatitis
	Boris Bastian	Four Types of Melanoma
	Victor Prieto	Melanoma, One Disease?
	N. Scott McNutt	Special Lecture: Spectral Imaging
	Omar Sanguenza/Philip LeBoit, Directors	<b>Inpatient Dermatopathology</b>
	Lindy Fox	A Clinician's Perspective on the Inpatient Skin Biopsy
	Roger Weenig	Drug Eruption or Not?
	Kim Hiatt	Skin Biopsy in the Post-Transplant Setting
	Philip LeBoit	Opportunistic Dermatopathology
	Lorenzo Cerroni	Emergency Dermatopathology
	Philip LeBoit, Director	<b>Pediatric Dermatopathology</b>
	Dieter Metz	Icthyosis
	Martin Mihm	Hemangiomas in Infants and Young Children
	Ruggero Caputo	Histiocytic Disorders in Childhood
	Philip LeBoit	Problematic Melanocytic Proliferations in Childhood
<b>2007</b>	Jorge Sanchez, Director	<b>Unusual Drug Eruptions</b>
10 <sup>th</sup> JM	Jorge Sanchez	Histopathologic Patterns of Drug Eruptions
D.C.	J. Andrew Carlson	Neutrophilic Drug Eruptions
	Carlos H. Noussari	Bullous Drug Eruptions
	Sergio Gonzalez	Granulomatous Drug Eruptions
	John Metcalf	Drug Eruptions to Chemotherapeutic Agents
	Roger Weenig	Lymphomatous Drug Eruptions
	Omar Sanguenza, Director	<b>Seeing is Believing: Saved by the Patient</b>
	Maria Teresa Fernández-Figueras	
	Dieter Metz	
	Francisco Bravo	
	Helmut Kerl, Director	<b>Diagnostically Problematic Melanocytic Tumors</b>
	Ingrid H. Wolf (H. Peter Soyer)	Correlation between Dermatoscopy and Histopathology in Atypical Melanocytic Tumors
	Almut Böer	Junctional Proliferation of Melanocytes on Sun-Damaged Skin: Benign or Malignant?
	Klaus J. Busam	Desmoplastic Melanoma
	Helmut Kerl	"Ancient Nevi" – Pleomorphic Melanocytic Nevi with Degenerative Changes
	David E. Elder	"SAMPUS" and "MELTUMP"
	Philip LeBoit	More Special Sites: Nevi of the Back, Ears and Scalp?
	Roger Weenig, Director	<b>Legendary Diagnoses of Pinkus and Winkelmann</b>

	Darius Mehregan	Entities Described by Pinkus
	Lawrence Gibson	Necrobiotic Xanthogranuloma
	Michael Camilleri	Pemphigoid Vegetans
	Nneka Comfere	Solitary Mycosis Fungoides
	Nicole Burkemper	Involucional Lipoatrophy
	Roger Weenig	Cytophagic Histiocytic Panniculitis
	Iftikhar Ahmed	Livedoid Vasculitis
	Philip LeBoit, Director	<b>“Best Practices” in Dermatopathology</b>
	Philip LeBoit	Evaluating of Margins
	Tim McCalmont	Targeted Immunohistochemical Evaluation of Neoplasms
	Michael Camilleri	Immunofluorescent Evaluation of Immunobullous Disease
	Sabine Kohler	Integrating Histopathologic and Immunohistochemical Findings with Molecular Data in Evaluating
	Omar Sanguenza, Director	<b>Clinicopathological Conference</b>
	Omar P. Sangüeza	
	Helmut Kerl	
	Victor Prieto	
<b>2008</b>	Maria Teresa Fernández-Figueras, Director	<b>Topographical Dermatopathology</b>
11 <sup>th</sup> . JM	Rossitza Lazova	Palms and Soles
S.A.	Sylvia Pasternak	Eye and Periocular Region
	José Casas	Penis
	Maria Angelica Selim	Vulva
	Maria Teresa Fernández-Figueras	Nipple
	Rossitza Lazova, Director	<b>My Most Extreme Case</b>
	Yamile Corredoira Salum	Martin Sangüeza
	Catherine Stefanato	Victor Prieto
	Dieter Metze	Jennifer McNiff
	Jorge Sánchez	Sergio González
	Rossitza Lazova	Omar Sangüeza
	Mark Hurt	Iakov Shimanovich
	Maria Teresa Fernández-Figueras	Jose Ollague Torres
	Heinz Kutzner	Francisco Bravo
	Omar Sanguenza, Director	<b>My Best Unpublished Observation in Dermatopathology</b>
	Aldo González-Serva	Francisco Bravo
	Alexander Lazar	Antonio Subtil
	Dieter Metze	Maria Teresa Fernández-Figueras
	Raymond Barnhill	Victor Prieto
	Dirk Elston, Director	<b>Infectious Diseases</b>
	Dirk Elston	
	Francisco Bravo	
	Carrie Kovarik	
	Sebastian Lucas	
	Kenneth Resnik, Director	<b>It Is Not Like That in Textbooks</b>
	Kenneth Resnik	Introduction / What is Seborrheic Keratosis?

	Jennifer McNiff	Verrucous – but is it a verruca?
	Heinz Kutzner	Benign Lymphangiomatic Papules?
	Francois Milete	It's Not Like That in Reality? A Proposition for Evaluation of Textbooks
	Almut Boer	Infectious Diseases Unmasked
	Mark Hurt	Atypia and Atypical? It Is Not Like That in Textbooks
	Robert Hurwitz	Histologic Patterns of Melanocytic Nevi
	Omar Sanguenza, Director	<b>Clinicopathologic Correlations</b>
	Omar Sanguenza	
	Helmut Kerl	
<b>2009</b>	Joan Guitart, Director	<b>“Cutaneous Lymphoid Infiltrates: Lessons from our Patients”</b>
12 <sup>th</sup> JM S.F.	Joan Guitart, Moderator Lorenzo Cerroni	Antonio Subtil Uma Sundram
	Karl Holubar	<b>"Melanin - Semantics and Early Investigations"</b>
	Heinz Kutzner, Director	<b>“Methods, Clues and Observations” Part I</b>
	Francisco Bravo: Kenneth Resnik: Maria-Teresa Fernández-Figueras: Heinz Kutzner:	Clues to a viral-induced dermatitis Analogies: Cytomegalovirus and herpes virus Electron microscopy in 2009: Is it worth it? Clusters of CD123-positive plasmacytoid dendritic cells are distinct clues to various entities
	Andrew Folpe/Jesse McKenney	<b>“Cutaneous Soft Tissue Pathology”</b>
	Jennifer M. McNiff Steven D. Billings Lori A. Erickson	Andrew L. Folpe Andrew Horvai Jesse K. McKenney
	Heinz Kutzner, Director	<b>“Methods, Clues and Observations” Part II</b>
	Luis Requena: Joyce S-S Lee: J. Andrew Carlson:	Types of necrosis of adipocytes as clues for specific diagnosis in panniculitis “Clew” in a labyrinth Lymphostasis: under-recognized, unappreciated, but a significant pathogenic factor in skin disease
	Roger A. Warnke, Lecturer	<b>Sabine Kohler Lecture</b>
		<b>“New Markers &amp; New Entities in the 2008 WHO Classification of Lymphomas”</b>
	Phil LeBoit, Moderator	<b>Serious Inflammatory Conditions</b>
	Bruce Smoller Artur Zembowicz Sylvie Fraitag-Spinner Whitney High	“Paraneoplastic pemphigus” “Necrolytic migratory erythema” “Dermatopathology of immunocompromised children” “Nephrogenic Systemic Fibrosis”
	Omar Sanguenza, Director	<b>“Mano” on “Mano”</b>
	Omar P. Sangüeza Lorenzo Cerroni Helmut Kerl	

	Jose Luis Rodriguez-Peralto Dirk Elston	
<b>2010</b>	Lorenzo Cerroini, Director	<b>“Where Do We Draw the Line: Not Every Atypical Melanocytic Tumor is a MELTUMP”</b>
13th JM Miami, FL	Lorenzo Cerroni: Philip LeBoit: Raymond L. Barnhill: Michael S. Rabkin:	Spitz nevi and atypical Spitz tumors Deep penetrating nevi Blue nevi, atypical blue nevi and pigmented epithelioid Melanocytoma Dysplastic nevi and other melanocytic nevi
	J. Andrew Carlson, Director	<b>"New Concepts &amp; New Observations"</b>
	David Cassarino Bernhard Zelger Anna Maria Cesinaro Dmitry Kazakov	Andrzej Slominski Tony Petrella Victor Prieto Satori Iwamoto
	Phil LeBoit, Course director	<b>“Application of Molecular Biology to Daily Dermatopathology”</b>
	Heinz Kutzner: Phil LeBoit:  Pedram Gerami: Uma Sundram	Polymerase chain reaction in dermatopathology Comparative genomic hybridization in melanocytic and non-melanocytic lesions Fluorescence <i>in situ</i> hybridization in melanocytic neoplasms New developments in gene rearrangement studies
	Roger Weenig and Lori D. Prok Course Directors	<b>“Pediatric Dermatopathology, Clinico-pathological correlations”</b>
	Philip LeBoit Dieter Metze Julie Powell	Ilona Frieden Julie Schaffer
	Fabio Facchetti	<b>Sabine Kohler Lecture</b>
		<b>"The Plasmacytoid Dendritic Cells/Interferon Type I Producing Cells in Cutaneous Pathology"</b>
	Rossitza Lazova, Moderator	<b>“Dr. A. Bernard Ackerman, The ‘Lives’ of a Dermatopathologist”</b>
	Richard Miller Stuart Grossman Reuven Bergman	Geoffrey Gottlieb Philip LeBoit
	Omar Sanqueza, Course director	<b>“Mano a Mano”</b>
	Kenneth S. Resnik Jennifer McNiff Luis Requena Omar Sangüeza Lorenzo Cerroni	

2011	J. Andrew Carlson, Course Director	<b>My most “Extreme Case”</b>
14th JM New Orleans	Mark Hurt Terry Barrett: Bruce Ragsdale: Dirk Elston:  Ricardo Macarenco: Rossitza Lazova Leslie Robinson-Bostom: Angelica Selim: Joan GuitartJacqueline Junkins-Hopkins: Aldo Gonzalez Serva: Markus Hantschke: Rafael Botella Estrada: Jag Bhawan: J. Andrew Carlson:	A web of quandary Diagnosis by autopsy Confirmatory brain biopsy 18 year old male in an acute coma 19 year-old female with persistent lower leg livedo An unexpected encounter in the 21st century Yellow-white follicular papules of the neck The extraordinary in the ordinary The most commonly missed diagnosis is ... Scratching the surface The winning lottery ticket, not wanted Dermal spindle cell tumor expressing melanocytic markers Progressive violaceous patches, incorrectly diagnosed Obscured by dark clouds Recalcitrant lower leg nodules in treated Whipple’s disease
	Victor Prieto, Moderator	<b>Dermatopathology in the Immunocompromised Patient</b>
	Dirk Elson Doina Ivan Kim Hiatt	
	Rossitza Lazova, Angelica Selim	<b>POSTER SESSION - DISPLAY &amp; DISCUSSION</b>
	Heinz Kutzner, Course Director	<b>Update on Immunohistochemistry in Dermatopathology</b>
	Victor G Prieto: Klaus Sellheyer: José Luis Rodríguez Peralto: Werner Kempf: Heinz Kutzner:	Use of immunohistochemistry in the diagnosis of cutaneous adnexal Not everything that glitters is gold: stem cell markers in dermatopathology New immunohistochemical finding in melanocytic lesions Immunohistochemistry in lymphoproliferative disorders-an update My last year's routine favorites
	Phil LeBoit, Course Director	<b>“What’s new in inflammatory skin disease”</b>
	Noreen Walsh: Werner Kempf : Anna Maria Cesinaro: María-Teresa Fernández-Figueroas: Bruce Smoller: Jennifer McNiff : Philip LeBoit:	No smoke without fire: Cocaine induced retiform purpura Plasmacytoid dendritic cells in inflammatory skin disease Annular lichenoid dermatitis of youth What’s new about Grover’s disease Clinical photographs and the diagnosis of inflammatory skin disease Update on histopathology of drug eruptions A survey of other new developments in the dermatopathology of inflammatory skin disease
	Elaine S. Jaffe	<b>Sabine Kohler Lecture Cutaneous lymphomas: Mergers and Acquisitions</b>
	Mark Hurt, Course Director	<b>Medicolegal Dermatopathology: Medical Negligence in</b>

		<b>Dermatopathology. How does an expert witness judge a case as being below the standard of care?</b>
	Mark A. Hurt, Introduction Jane M. Grant-Kels Philip E. LeBoit Whitney A. High	
	Omar Sanguenza, Course Moderator	<b>“Mano a Mano”</b>
	Omar Sangüeza Francisco Bravo Werner Kempf Noreen Walsh Maxime Battistella	
<b>2012</b>		
15th JM San Diego, CA	Rossitza Lazova and Angelica Selim, Course Directors	<b>ORAL ABSTRACT PRESENTATIONS</b>
	Rossitza Lazova and Angelica Selim, Course Directors	<b>DERMATOPATHOLOGY TRAINEE WORLD CUP</b>
	Victor Prieto, Andrew Carlson, Omar Sanguenza, Course Directors	<b>SELF-ASSESSMENT COURSE INCLUDING MOC QUIZ</b>
	Heinz Kutzner, Course Director	<b>"Jeopardy - Essentials of Diagnosis"</b>
	Francisco Bravo: María-Teresa Fernandez-Figueras: Werner Kempf: José Luis Rodriquez Peralto: Luis Requena: Kenneth Resnik:	The many faces of a tiny protozoa Soft tissue tumor diagnosis: a risky business Cutaneous lymphomas - clues and pitfalls Challenging questions in melanocytic lesions The many faces of metastases Granular parakeratosis - how, what and why?
	Andrew Carlson, Course Director	<b>Hypotheses in Dermatopathology</b>
	Klaus Sellheyer: Andrzej Slominski: Werner Kempf: John Seykora: J. Andrew Carlson:	"Basal cell carcinoma: follicular or not?" "Melanin and its biosynthesis- a double-edged sword. Does melanin and its precursors play a role in the initiation and promotion of melanoma?" "Persistent cutaneous inflammation initiates and promotes cutaneous lymphomas" "Cutaneous field cancerization: evidence for" "Lichen sclerosus and HPV: is this the cutaneous counterpart to chronic viral hepatitis induced cirrhosis?"
	Omar Sangüeza, Moderator	<b>Exotic Dermatoses</b>
	Roderick Hay Francisco Bravo	

	Wayne Grayson Martin Sangüeza	
	Rossitza Lazova and Angelica Selim, Course Directors	<b>New Diseases/New Concepts</b>
	Daniela Massi: Luis Requena: Mariya Miteva: Jean Kanitakis : Rossitza Lazova: Rino Cerio: Reuven Bergman:	Mucosal melanoma: Challenges and perspectives New findings in mucormycosis panniculitis: Ghost adipocytes and needle-shaped crystal Tips and tricks in hair pathology In vivo confocal microscopy: A new way to look into normal and diseased skin Mass spectrometry: A new era in the diagnosis of Spitzoid neoplasms Vulval intraepithelial neoplasia, HPV and squamous cell carcinoma: New concepts "When you see acantholysis- think molecularly!"
	<b>Jean Bologna</b>	<b>Sabine Kohler Lecture - Moles with a Story</b>
	Phil LeBoit, Course Director	<b>Controversies in Dermatopathology</b>
	Dmitry Kazakov: Werner Kempf: Raymond Barnhill: Philip E. LeBoit:	"Controversies regarding biphasic follicular adnexal neoplasms" "Is CD4+ small/medium pleomorphic T cell lymphoma really a lymphoma?" "Plexiform spindle cell nevus is a distinctive entity" "Other controversial melanocytic neoplasms"
	Omar Sangüeza, Course Director	<b>“Mano a Mano”</b>
	Sylvie Fraitag-Spinner Silvia Pastenak Lawrence Gibson Luis Requena Hideko Kamino Omar Sangüeza	
<b>2013</b>	Andrew Carlson, Director	<b>"Hypotheses and Observations that Impact Dermatopathology"</b>
16th JM Miami, Fl	Gürkan Kaya:  Franco Rongioletti:  Tony Petrella:  Maxime Battistella:  Andrew Carlson:	Dermatoporosis is an unrecognized chronic cutaneous insufficiency/fragility syndrome that impacts on the diagnosis and management cutaneous disease Aquagenic keratoderma is a pseudokeratoderma: new pathological insights of an emerging disease. Leukemia cutis shows a broad spectrum of differentiation including plasmacytoid Matrical differentiation: evidence of follicular stem cell origin, aberrant Beta catenin expression, and histologic sign linking a broad spectrum of adnexal tumors Giant neglected basal cell carcinomas: are lack of enervation and neuropeptide production factors in neglect (insouciance)?

	Wolfgang Weyers, Director	<b>"Diagnosis vs Prognosis in Pathology and Dermatopathology"</b>
	Wolfgang Weyers: Francois Milette: Harald Kittler: Jeffrey P. North: Francois Milette and Nathalie Provost:	Diagnosis or Prognosis – Dissociation of Objectives of Pathological Examination in Historical Perspective Predictive Factors and Predictive Power – the Problem of Transcribing Statistical Data to Individual Patients Predicting survival: Sentinel Lymph Node Biopsy as a Model Molecular Pathology between Diagnosis and Prognosis Prediction of Outcome – a Fourfold Delusion
	Luis Requena, Director	<b>"Dermatopathology Insights from Spain"</b>
	Antonio Torrelo: José Luis Rodriguez Peralto: Onofre Sanmartin:  Luis Requena	Dermatopathology of autoinflammatory pediatric syndromes New insights in histopathologic diagnosis of melanoma Histopathology of cutaneous eruptions secondary to new chemotherapy drugs A new benign cutaneous neural tumor with hybrid features between perineurioma and cellular neurothekeoma
	Heinz Kutzner	<b>"New and Useful Antibodies"</b>
	Ben G. Tallon Dmitry Kazakov Jean Kanitakis Tammy Ferringer José Luis Rodriguez Peralto María-Teresa Fernández-Figueras Jeffrey North Noreen Walsh David Cassarino	RCC-Ma Calponin HHV-8 SOX 10 DEK p16  CD 34 Wizzle or Wozzle: Immunohistochemical footprints to the rescue! D2-40
	<b>Cédric Blanpain</b>	<b>Sabine Kohler Lecture</b>
		<b>"STEM CELLS IN SKIN CANCERS"</b>
	Werner Kempf, Director	<b>"Inflammatory Diseases Update"</b>
	Wayne Grayson: Katrin Kerl: Andrew Carlson: Christina Mitteldorf: Werner Kempf:	Inflammatory skin diseases and skin infections in HIV infection Drug eruptions caused by new drugs (biologicals) Vasculitis Interface Dermatitis Inflammation or more?
	Omar Sanguenza, Director	<b>"Mano a Mano"</b>
	Reuven Bergman Wayne Grayson Jane Messina María-Teresa Fernandez-Figueras	
2014		

17th JM Denver, CO	J. Andrew Carlson and Dieter Metze, Course Directors	<b>"DERMATOPATHOLOGY UPDATE: WHAT IS NEW AND PRACTICAL IN....."</b>
	Rajiv Patel Dieter Metze Joan Guitart Raymond L. Barnhill	: ..... "in soft tissue tumors" : ..... "in palmoplantar keratodermas" : ..... "in cutaneous lymphomas" : . "in melanocytic dermatopathology: MPATH-DX reporting schema"
	Philip E. LeBoit and Whitney A. High, Course Directors	<b>"SOURCES OF ERROR IN DERMATOPATHOLOGY"</b>
	Whitney A. High Philip E. LeBoit David B. Troxel Keith Lapuyade Paul Faraci Lorraine Parker	
	Heinz Kutzner and Werner Kempf, Course Directors	<b>"PRACTICAL APPROACHES TO DIFFICULT LESIONS"</b>
	Werner Kempf: James Fitzpatrick: Heinz Kutzner: Jeffrey North: Tammie Ferringer:	Lymphomas, round cells Diagnostically challenging inflammatory diseases Vascular and soft tissue Adenocarcinoma and metastases Adnexal
	Sylvie Fraitag-Spinner, Course Director	<b>PEDIATRIC DERMATOPATHOLOGY</b>
	Lori D. Prok: Janine Wechsler: Philip E. LeBoit: Sylvie Fraitag-Spinner:	"Clinico-pathological correlations of childhood panniculitis" "Cutaneous histiocytoses: diagnostic challenges". "Unusual melanocytic proliferations arising in congenital nevi" "New insights into vascular anomalies in children"
	Kenneth Aldape, Lecturer	The 2014 Sabine Kohler Lecture <b>Next-generation Pathology: Opportunities and Challenges for Clinical Genomics of Solid Tumors</b>
	Rossitza Lazova, Course Director	<b>"SAVED BY THE PATIENT" CHALLENGE FOR THE BEST MOST INTERESTING CASE</b>
	Güerkan Kaya Thomas Helm Sylvia Pasternak Victor Prieto Drazen Jukic Heinz Kutzner Ana María Molina Ruíz Omar Sangüeza	

	Christopher Shea J. Andrew Carlson Ronald Rapini Franco Rongioletti Arlene Rosenberg Rossitza Lazova	
	Omar Sanquieza, Course Director	<b>"MULTI-CONTINENTAL MATCH"</b>
	Clay J. Cockerell María Teresa Fernández-Figueras Philip E. LeBoit José Luis Rodríguez-Peralto Kenneth Resnik Werner Kempf Petra Milde Heinz Kutzner Reuven Bergman Francisco Bravo Joyce SS Lee Martin Sanquieza Wayne Grayson Marcela Saeb Lima Gabriel Casas	
<b>2015</b>		
18th JM, San Francisco, CA	Boris Bastian & Phil LeBoit, Course Directors	<b>"INTEGRATING MOLECULAR DIAGNOSTICS WITH DERMATOPATHOLOGY"</b>
	Werner Kempf: Kojo Elenitoba-Johnson: Matt van de Rijn: Boris Bastian: Iwei Yeh: Philip LeBoit:	Molecular diagnosis of infectious disease Molecular diagnosis of hematologic neoplasia Molecular diagnosis of soft tissue tumors Molecular analysis of melanocytic neoplasms Genetic alterations in Spitz tumors Clinico-histopathologic-molecular correlation in some difficult melanocytic cases
	Dieter Metze & Sylvie Fraitag, Course Directors	<b>AUTOINFLAMMATORY DISORDERS: AN UPDATE</b>
	Lars E. French: Kieron Leslie: Dominique Vignon-Pennamen: Sigrid M.C. Broekaert: J. Andrew Carlson: Sylvie Fraitag-Spinner:	Autoinflammation, disease and the skin Clinical, diagnostic & therapeutic aspects of autoinflammatory syndromes Histology of neutrophilic dermatoses Histologic clues for autoinflammatory diseases Urticaria vasculitis-to be or not to be Puzzling neutrophilic infiltrates– A quiz

	Andrew Carlson & Katrin Kerl, Course Directors	<b>"NEW PATTERNS OF CUTANEOUS ADVERSE DRUG REACTIONS"</b>
	Dieter Metze: Katrin E. Kerl: Maxwell Fung: Tammie Ferringer: Luis Requena: Carlos Torres-Cabala: J. Andrew Carlson:	Overview: the spectrum of cutaneous adverse drug eruptions. Adverse drug reactions: severe, life threatening, unusual presentations; pitfalls in diagnosis. Adverse drug eruptions to targeted anti-cancer therapies. Adverse drug eruptions to targeted anti-inflammatory (immune modulating). Drug-induced panniculitis . Drug triggered cutaneous neoplasia. Drug induced vasculitis, including levamisole/cocaine triggered thrombotic vasculitis.
	Luis Requena & Paco Bravo, Course Directors	<b>VIRAL AND OTHER INFECTIOUS DERMATOPATHOLOGIES</b>
	Ana María Molina Ruíz: Luis Requena: M. Ramam: Ángel Fernández-Flores: Patricia J. Alvarez: Francisco Bravo:	Update on immunohistochemistry for the diagnosis of viral disease Update on immunohistochemistry for the diagnosis of bacterial disease Leprosy, an update on histopathology of the disease and the reactions Morphologic diagnosis of deep cutaneous fungal infections Ganthostomiasis and other migratory worms Tuberculosis, an update on the histopathology
	Joseph DiRisi, PhD.	<b>SABINE KOHLER LECTURE</b> <b>"Next-Generation Sequencing (NGS) and Diseases of Unknown Etiology"</b>
	Angelica Selim, Course Director	<b>ORAL AND GENITAL PATHOLOGY</b>
	Richard Jordan: Elsa Velazquez: María-Teresa Fernández-Figueras:	The good, the bad and the lethal of Oral Pathology Penile intraepithelial neoplasia Clues and concepts in vulvar diseases: Ten things you should know
	Omar Sangüeza, Director	<b>MULTI-CONTINENTAL MATCH"</b>
	Mark Jacobson Heinz Kutzner Kenneth Resnik Dieter Metze Clay Cockerell Luis Requena J. Andrew Carlson José Luis Rodríguez-Peralto Wayne Grayson Ricardo Macarencio M. Ramam Martin Sanquieza Mano Singh Francisco Bravo
